

Simplify Every Step of the Caregiving Journey

The HHAeXchange+ mobile app makes visits simpler, faster, and fully compliant.

What if every caregiver visit could be seamless, compliant, and stress-free?

Caregivers need an easy way to clock in and out, view visit details, and complete care tasks—without clunky paperwork or frustrating tech. When the process is hard, it leads to mistakes, delays, and burnout.

Agencies run best on accurate, real-time visit data. When documentation is slow or messy, it creates compliance risks, delays billing and payroll, and adds administrative strain. And when caregivers don't have the tools they need, they become frustrated, and job satisfaction suffers.

With the HHAeXchange+ caregiver mobile app, you get:

- Faster, compliant EVV
- Accurate visit data, automatically
- An app caregivers enjoy using

The HHAeXchange+ mobile app streamlines caregiver tasks and agency workflows. Built around how caregivers work, it makes documentation fast, intuitive, and reliable, giving them more time to focus on care. With real-time data flowing in from every visit, agencies stay ahead of compliance, billing, and care management.

Efficiency for the Entire Care Team

Go mobile-first to simplify daily workflows. Mobile EVV sparks a domino effect of efficiency across caregivers and administrators.

Accurate Data That You Can Act On

Real-time data gives you visibility to act fast, pivot when needed, and stay compliant.

EVV Compliance Made Easy

Spend less time reconciling EVV and catch issues before they become problems.

The new app is easy to use, and I love that it is set up to allow me to do my job without problems.

Cecelia, Caregiver at Gentiva

HHAeXchange+ Caregiver Mobile App

The mobile app that caregivers will love from clock-in to clock-out and everything in between.

One Easy App for All Visit Tasks

Caregivers can easily clock in and out, view comprehensive visit details, add patient notes in multiple formats, see authorized hours, and address plan of care duties.

Real-Time Data for Real-Time Decisions

Access data in real-time, enabling smoother operations, timely billing, and accurate compliance reporting.

Reliable Offline Mode

Continue visits without disruption, even in areas with poor or no connectivity, with offline mode. Data automatically syncs once online.

Spot Compliance Issues Before They Cost You

Reduce the administrative burden for your agency with automated alerts that identify discrepancies or compliance risks before they impact billing.

Secure, Compliant EVV

Faster EVV confirmation leads to quicker billing cycles, reduced errors, and better financial outcomes. Push notifications send a gentle nudge to caregivers before every scheduled shift is about to start and end, so they never miss a clock-in or clock-out. Plus, enhanced GPS accuracy and reliability help uphold compliance requirements for visit validation.

Wow Your Caregivers

Support a diverse workforce with an app available in 23 languages and filled with visual cues for important to-dos. Help caregivers quickly ask a question or communicate important updates with your agency with an easy-to-use chat feature.
